## 1961 BULB LIST

For your kind consideration we are here submitting our fall price list of flower bulbs.

From the Netherlands we selected the varieties of Bulbs indicated in this list. We trust you may find the varieties you would like to have in your Home and Garden this Winter and Spring. All our bulbs are of Top Grade or larger sizes and should produce better and bigger flowers than smaller bulbs.

The shipments are due to arrive in September and early orders will be appreciated. Should any ordered variety be sold out when your order reaches us we shall substitute with like or better variety unless you mark your order to the contrary.

We guarantee that all bulbs we sell are in perfect condition at the time of sale and will cheerfully refund the purchase price if not found to be so but we cannot entertain any possible claims referred to us more than 10 days after receipt of bulbs.

The Danish Seed Co. warrants to the extent of the purchase price that Seeds and Bulbs sold are described on the container within recognized tolerances. Seller gives no other further warranty expressed or implied.

DANISH SEED CO.  
RALPH KEMNA, Mgr.

# TULIPS

The figures in parentheses indicate approximate height.
